USER GUIDE

Fill Pre Assessment results student wise in "*Math Assessment*" sheet

Identify the goals for different student groups from Table 1 in "*Select Goal, Student, Volunteer*" sheet

Know how many volunteers are required to teach all the students

Finalize the realistic number of students who can be taught in C2T based on volunteer availability

Based on the student count decided for teaching, select student names who are going to be taught. Fill "Yes" or No in Coli for each student to decide students. Exclude students where recommended goal is "C2T Not Required"

Make changes if any in "Confirmed Goal for Teaching" in "*Math Assessment sheet*".

Goal statement will be generated above the table (in "B8" cell - highlighted in green).

Based on the Post Assessment, fill the number of correct answers for whom "Selected for teaching" is 'Yes' in '*Math Assess*

The Post Assessment result will be auto populated. Goal Completion % will be displayed above the table in "F6".
